

PUBLIC NOTICE

MANDATORY WORKSHOP FOR CONTRACTORS

WHAT: The City of Manteca will be hosting a workshop on recycled water use and handling for all local construction purposes. Due to the ongoing drought in California we are currently experiencing, the City of Manteca will PROHIBIT the use of potable water for construction use purposes starting May 11, 2015. Contractors will be required to utilize recycled water ONLY, from the Manteca Wastewater Quality Control Facility (WQCF), for construction use purposes.

All 'Water Truck Drivers' that are currently using city potable water for construction purposes MUST attend the Workshop on any of the dates provided. The Workshop will discuss the 1) Procedures, 2) Monitoring Requirements, 3) Title 22 Recycled Water Use Requirements, and 4) Hours of Recycled Water Availability. The Workshop will last between 30-40 minutes and all attendants will receive a Certification Card for recycled water handling. Recycled water will only be available to drivers who attended the Workshop AND have the City issued Certification Card. Water truck drivers that do not have a Certification Card will NOT be allowed to fill-up with recycled water. Recycled water will be FREE of charge to drivers obtaining a valid Certification Card from the City of Manteca.

The workshop will include specific information on recycled water use, connecting to the purple hydrants, reporting the meter read after filling up, location of the two purple hydrants, and proper public posting of recycled water use. The workshop will be followed by a question/answer period to provide an opportunity for comment.

WHERE: Manteca Wastewater Quality Control Facility, 2450 W. Yosemite Ave, Manteca, CA 95337

WHEN: All classes start at 8:00am on the following dates (excluding city recognized holidays):

Wednesday, January 11, 2017	Wednesday, May 17, 2017	Wednesday, September 20, 2017
